FOR IMMEDIATE RELEASE

TRINITY DESIGNS, INC. MAKES A FOOTPRINT IN HISTORY

(September 8, 2012) Trinity Designs, Inc. relocated to Missouri City, TX and has been welcomed with open arms to the Lone Star state. Originally headquartered in Chicago, IL TDI sought out Texas as its new home.

Trinity Designs, Inc. has successfully tapped an extremely difficult market. The doll industry typically dominated by mega companies has had to take notice of this small woman-owned company that continues to inspire and encourage small business owners, women and young girls across the nation.

Trinity Designs, Inc. has had an overwhelming response of support and continues to grow its collection of minority inspired collectibles. They have several new designs to add to its unique portfolio of fashion dolls that are sure to catch the eye of the collector and the industry leaders.

Currently Trinity Designs, Inc.'s dolls are in the "big girl" 16 inch category. There are plans to debut "lil girls" soon that are 12 inch dolls. TDI is excited about its growth and ability to maintain a presence in the doll industry.
